## Photographs Collection Subject Headings

Holdings at September 2009

### Background

This collection has its origins as part of historical records sent to the Connexional Secretary for safekeeping, since the late nineteenth century onwards.

The earliest known New Zealand photographs in the collection, are carte de visites dating from the 1860s. The most recent photograph is the current year.

A group project by the Archives volunteers in 2008-2009, has been to put all photographs into acid-free folders, in preparation for cataloguing individual images.

These folders were given titles, and the organisation of the collection was based on the previous subject-based arrangement of the collection.

Because of the differing size of images, they have been stored in three formats:

Standard

Large format

Outsize

When parishes have sent in photographs, these have been separated from the Parish Archives Collection, and stored with the Photographs Collection.

Photograph albums have been individually described.

### Arrangement of Collection

There are five groupings:

1. **Places** – images of churches and parishes, listed in code number order, starting at the top of New Zealand.
2. **Events** – national events, including the Methodist Church of New Zealand Conference, official portraits of Presidents and Vice Presidents.
3. **People** – portraits of New Zealand Methodist Ministers in alphabetical order by surname and General Portraits of people in alphabetical order by surname.
4. **Special Collections:**
  - Deaconess Collection, which was assembled by Rev Marcia Baker in her role as Archivist, of portraits of Deaconesses, group portraits, places and events, Sister Eleanor Dobby Collection Sister Betty Yearbury Collection
  - Youth – comprising national events of the Youth Department including conferences and Bible Class activities. (District Youth or Bible Class activities are housed with the district files in the Places subject headings), and collections compiled by individuals of Youth activities
