

# **METHODIST CHURCH LOOKING FORWARD**

## **Contact Tracing**

**Version 4**

**Tuesday 16 June 2020**

*Please treat all information in this Version as new information*

## This document is a Connexional Work in Progress

It is advice of good practice which we could consider keeping as a core activity as we navigate our way through this challenging time.

The document looks at the advice that is publicly available, and what would suit our own situation. Technology is not always the answer if our people are not all on the same platform, or if they don't all have access to that platform.

This document will be updated as suggestions come forward from the Connexion. Please contribute your great ideas to this cause!

## Fast Contact Tracing is important

All of the world needs to be in control of COVID-19 before we will be truly safe.

Contact tracing will be New Zealand's key tool to minimise the chances of a second or further wave of COVID-19 sweeping our country.

Individuals are responsible for keeping a diary of where they have been, and who they've been with.

As a Church we should help by providing NZ COVID Tracer QR code posters at all of our buildings.

## Create a NZ Covid Tracer QR Code Poster

The NZ COVID Tracer App is not yet perfect, but with a little time and feedback it will improve, as the App team have proven by transforming the poster creation process into something easy to do.

**All our non-residential buildings should have QR Codes available for everyone to use.**

For one to twenty building locations	<a href="https://qrform.tracing.covid19.govt.nz/createposter/verify-identity">https://qrform.tracing.covid19.govt.nz/createposter/verify-identity</a>
For more than twenty building locations	<a href="https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus/covid-19-novel-coronavirus-resources-and-tools/nz-covid-tracer-app/nz-covid-tracer-qr-codes#posters">https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus/covid-19-novel-coronavirus-resources-and-tools/nz-covid-tracer-app/nz-covid-tracer-qr-codes#posters</a>
Important notes	<ul style="list-style-type: none"><li>• Location Name is <b>limited to 35 characters</b>, avoid all punctuation marks including dashes and apostrophes</li><li>• Use this BIC reference = <b>S954010</b></li></ul>

## Using the app

The App is available from the [App Store](#) or [Google Play](#).

Technical stuff: You will need at least Android 7.0 and iOS12.

The plan is to open it up to older versions but a date is still to be confirmed.

Use instructions are available from <https://tracing.covid19.govt.nz/>

You can register online if you don't have a smartphone <https://tracing.covid19.govt.nz/signup>

"By signing up to this app, you're helping keep yourself and your family safer and supporting New Zealand to stop the spread of COVID-19.

This will ensure we can all return to doing the things we enjoy as soon as possible."

Ngā mihi nui,

*Dr Ashley Bloomfield*  
Director-General of Health

## Alternatives for Smartphone issues

For whatever reason you may not want, or may not be able to use the App. Here are some ideas to keep track of where you have been and when.

Take a photo!	Make it memorable!
Write in a diary	Time, location, who you were with
Use a daily form	See attached. Time, location, who you were with.
Register online – update your locations on line	<a href="https://tracing.covid19.govt.nz/signup">https://tracing.covid19.govt.nz/signup</a>
App doesn't work on your phone?	Contact trace online <a href="https://tracing.covid19.govt.nz/signup">https://tracing.covid19.govt.nz/signup</a> The App will be made available to older phones; 'when' is still to be confirmed Borrow a teenager to help with the technology!
Don't take your phone to church?	Cheat a little bit – have a copy of the church's QR code at home or in your car. Scan it there!
No data on phone	Once loaded, the App doesn't need data. All the information is stored on your phone. Turn the data off!
Using an alternative App?	These may be linked to the NZ COVID Tracer app; 'when' is still to be confirmed
