

CUTTING

Cut 2 layers of fabric

Goes to pinning

CUTTING

Cut one filter on the fold

Goes to ironing

IRONING

Fold and iron long edges 6mm under TWICE.

Goes to sewing

SEWING

SEW down long edges

Goes to ironing

IRONING

Fold filter in half (wrong side together) and iron

Goes to pinning

PINNING

1. Pin filter to the right side of one of the top pieces (Keep the centres of the two pieces together)
2. Pin at the bottom as well. Filter is shorter so will have to reposition fabric
3. Add the other top piece on – right side facing in

Goes to sewing

Sew along the top and bottom of the mask fabric leaving the sides open
6mm seam

Goes to cutting

CUTTING

Clip the corners, reduce the bulk

Turn it right side out, poke the corners out

Goes to ironing

SEWING

Topstitch along the folds 3mm from folded edge, top and bottom

IRONING

Iron whole thing flat again

Fold side edge under 10mm TWICE and iron well. This is elastic casing.

Pin it if it doesn't stay put

Goes to sewing

Sew along the edge and backstitch

Fold angled edge of flap up and pin next to elastic casing.

Repeat at all four corners

Sew. Stich back and forth a few time to make sure it stays.

Goes to elastic

ELASTIC

Cut 2 pieces of elastic at 30cm each (try 35cm for larger faces)

Cut out the tags and punch holes in them.

Pull elastic through casing. Lightly tie together with a tag.

The Instructions Tag (other side used for logo)
