Housing Community of Practice

**‘Radical Methodism – Radical Change’
Methodist Alliance Forum Nov 2019**

Housing across the Alliance

What we are we most proud of?

- Co-ordinating our work on social housing preparing a Synod discussion paper on parish investment in social housing
- Building strong relationships with government around housing
- Working together as an alliance to combat the housing crisis

What do we hope to achieve in the next two to three years?

- Establish a social housing investment fund
- Better use of MCNZ resources to address the housing crisis
- Expanding our social housing programmes

Key issue/question

- The Methodist Church as a whole has an opportunity to look at its own resources (in particular capital, investments and land). How can we best use these most effectively to respond to the housing crisis?
- How do we hold together our commitment to build affordable housing whilst also helping build strong communities?
- Streamlining the process for social housing investment

Building Strong Communities

Daring to Dream.....
